

Good Afternoon,

For more than four decades, Special Olympics has been bringing one message to the world - that people with intellectual disabilities can and will succeed if given the opportunity. The transformative power of sports to instill confidence, improve health and inspire a sense of competition is at the core of what Special Olympics does. Our athletes are pushing hard for goals some people can't imagine, against obstacles few have had to face. Their drive to triumph comes from deep inside, it comes from the heart. What happens can be truly magical.

Many of these magical moments in the lives of our participating athletes and families within the Inland Northwest are made possible as a result of the Washington State Law Enforcement Association's faithful support. Your organization has remained an integral part of our ability to not only provide but improve upon local programming.

WSLEA has continued to understand the great importance of our efforts and champion to keep the Flame of Hope burning bright for our athletes. Please accept our most sincere thanks as we remain ever so grateful. We truly hope that you and your organization are just as proud as we are of the role you've played in helping our "Special Olympians" to achieve their dreams.

Best Regards,

.....

Jennifer Suniga
Director of Development
