One of the greatest tools a law enforcement professional possesses is the ability to influence the overall outcome of interactions. **Read, Recognize, Respond** focuses on today's peacekeeper and their ability to effectively evaluate others and utilize communication skills to make sound decisions that result in safe and successful resolutions.

Read, Recognize, Respond utilizes scientific research, numerous case studies, and a wide array of videos of real-life encounters to offer training scenarios with the goal of understanding and improving officer interaction skills.

While this seminar is dynamic, practical, and *fun*, Calibre Press takes the subject of officer and community safety seriously. Students will develop a thorough understanding of human nature and how communication skills can be utilized to effectively read body language, detect deception, and recognize pre-attack indicators. We offer techniques to successfully build rapport, calm the irrational, and present one's self as an aware and tactically sound professional law enforcement officer.
