## **ROAD WISE**

The dangers in and around patrol units are often forgotten or minimized by officers as their careers progress. But every year, thousands of officers are injured or killed conducting what they perceive as “routine” patrol operations. **Road Wise** is a realistic and honest look at the hazards officers face daily and a train-the-trainer course that will assist agencies in implementing culture change and a positive training environment to improve vehicle and patrol operations. This course gives trainers the materials needed to help keep their agencies on the leading edge of contemporary training ideas related to vehicle operations.
